

Industrial Energy Compliance Platform

All-in-one energy management and compliance platform for India's industrial sector — built for energy consultants, ESCOs, and manufacturing units. Covers ZED certification, ISO 50001 compliance, utility bill analysis, and ROI documentation.

Key Features

- 30+ compliance modules covering ZED, ISO 50001, and electrical safety
- Utility bill analysis with auto-detection of penalties and anomalies
- Pre-built ROI calculators and savings documentation
- Compliance calendar with audit and certification deadline tracking
- Multi-tenant SaaS with role-based access for consultants and clients
